

# CLEVERTOUCH

Technology for Sharing

A photograph of four business professionals (three men and one woman) in a meeting, smiling and looking towards the right. The image is overlaid with a white network diagram consisting of circles and connecting lines. The central figure is a man with glasses and a beard, wearing a suit and tie. The other three people are also in business attire. The background is a blurred office setting.

## — Collaboration and Control Features

# Clevershare App

## Connect and control from any device with Clevershare

With **Clevershare** you can intuitively share content from your PC, Mac, iPhone/iPad or Android device. Simply download the **Clevershare** app to your computer, phone or tablet and type in the code shown on the **Clevertouch**. In seconds your device and your **Clevertouch** are connected, and can cast video, audio and touch in both directions.

- Up to 32 connections
- Windows, Mac, iOS and Android
- Use your mobile device as a document camera
- Live stream video
- Bidirectional touch
- Remote mouse, touch pad and button mode

## Clevershare Wireless Device

### Revolutionary New Ways to Collaborate

#### Wirelessly transmits Video, Audio and Touch

With the **Clevershare wireless device** you can control the **Clevertouch** from anywhere in the room, without the need for any wires. Simply plug the **Clevershare** into your laptop's USB port and you can show and edit your laptop's content on the Clevertouch screen. You can instantly display your desktop and control from your computer or **Clevertouch** – your pen or finger becomes your mouse.

# Clevercable

---

## Connect and control via USB cable from any device

**Clevercable** is the hardwired version of our **Clevershare** technology and enables sharing on any device to your **Clevertouch** via the USB port.

- Quick and hassle free set up
- Provides reverse touch control
- Includes one-button click for instant sharing
- 5 metre cable
- Secure

**Clevercable** comes as standard with every purchase of a Pro Series screen.

## OTA Updates

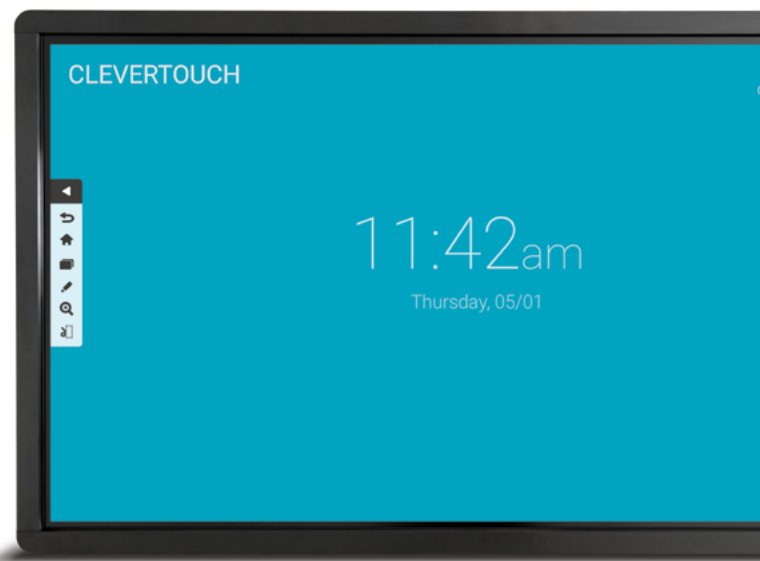

---

### Updates delivered instantly

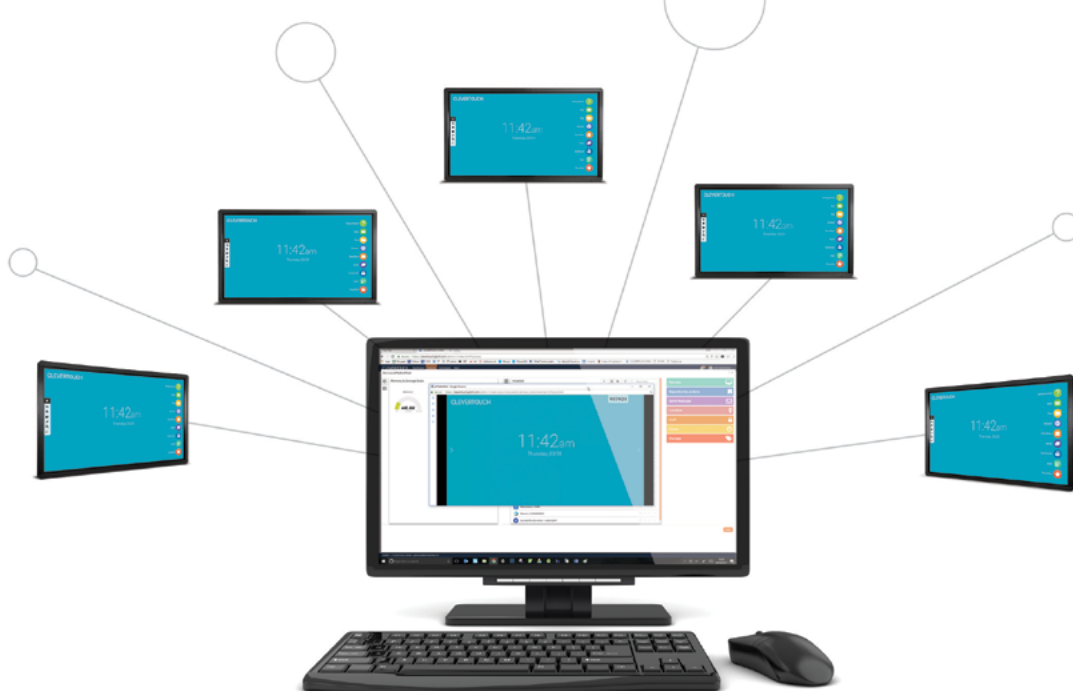

The new Over-the-Air technology means that new features, bug fixes, software and hardware updates can be seamlessly delivered to every **Clevertouch** screen.

With just the click of a button the **Clevertouch** screen will search for the latest firmware update and install it, giving you instant access to the latest apps and features.

Patch fixes no longer have to be downloaded onto a USB and uploaded manually, giving IT Managers more time and less hassle.

# Clevertouch MDM Centralised Control

## Control multiple Clevertouch devices, wherever they are

The **Clevertouch MDM system** enables help desks, IT administrators and project leaders to centrally manage and support hundreds of **Clevertouch** devices, wherever they are. Reaching well beyond the local network boundaries, our Centralised Management System delivers a bird's-eye view of an entire device fleet, enabling administrators to give the best support possible with optimal conditions for decision-making.

Extend your support umbrella, control capabilities and manage **Clevertouch** screens wherever they are located and operating, both inside and beyond the organisation's network. Manage mission critical and complex IT infrastructures and simplify demanding operation and maintenance work on multiple devices.

- Control hundreds of **Clevertouch** devices remotely
- Create groups to make sure each screen has the most suitable apps and files for where it is used, such as C-Suite, Design Studios, Maths Class, Reception Class, corporate boardroom, huddle room, etc.
- Take control of the **Clevertouch** screen from your desktop
- Install APKs, policies and files
- Push messages directly to the **Clevertouch** display, ideal for security announcements
- Anti-theft module – Lock, unlock and reset displays
- Restart or shutdown multiple screen/s remotely by a single click
- Wipe the screen
- Run diagnostics

Optionally, **Clevertouch MDM** can serve as the basis for managing other devices in the organisation (Android, Windows, iOS and Chrome OS) from a single console, such as desktops, laptops, tablets and smartphones.
